The population of Santa Monica

Is now a little over 92,000

We are crowded into 11,000 residents per sq. mile

This is 4,617% higher than the California average

And 12,000% higher than the national average...

Which leads to the following

question...

CAN SOMEONE PLEASE TELL ME WHY WE NEED SEVERAL THOUSAND NEW APARTMENTS FOR THE RICH, THE POOR AND THE HOMELESS?

Here is a Comparison Of Crime Rates In Santa Monica, California and Nationally

Crime Per 100K People Santa Monica California National

Rape
Robbery
<u>Assault</u>
